Save Our Town Hall

The Green Council have refused to rule out the sale of Portslade Town Hall, used by local residents since 1959.

It is clear that Labour and the Greens have deliberately allowed the building to fall into disrepair - its boarded up windows, unsightly notice board, and damaged Union

Jack are a sorry blot on the locality.

Your Conservative candidates Kirk Taylor and Gary Taylor see this as the placing of Portslade as second best to the rest of the city.

Similarly, residents will also remember the failed attempt to place vulnerable adults in the

iconic Old Brewery building last year. If you would like to save Portslade Town Hall please sign our petition at; www.brightonhoveconservativecouncillors.com/campaigns/save-portslade-town-hall

Kirk and Gary fighting to save your Town Hall

Local people make their feelings known after the Council's botched attempt to turn the Brewery into a refuge for Drug Addicts

It's time to weed out this complacent Labour/ Green Council

North Portslade residents are sick of the untreated and rampant growth of weeds. The then Labour Council banned the use of weed killer but then failed to put any alternative arrangements in place. This has caused a danger to residents, their pets and children. Kirk and Gary are clear that people should receive a decent

service for their Council Tax. This clearly is not happening at the moment. If you agree with Gary and Kirk and would like to see the end of the weeds, then please get in touch on the contacts overleaf and help them weed out this complacent and incompetent Council.

Weeds run rampant under this council

Kirk Taylor

Kirk lives in North Portslade and has been a Brighton and Hove resident for most of his life. Kirk is a builder and former soldier. He has recently been on charitable missions to Ukraine, driving essential provisions to the Ukrainian people.

Kirk is keen to see a Council that provides proper services for residents. Kirk says that too much time has been wasted on the Council's pet schemes, inefficiencies and woke agendas to the detriment of local residents.

Kirk Taylor

Gary Taylor

Gary lives and works in Brighton and is a teacher. He has served as Councillor before and is interested in the quality of

education our young people receive. Gary says that the main role of a Council is to protect the quality of life of local people. This means cracking down on excessive parking charges, fixing the rubbish and recycling, getting the weeding done and not allowing a pointless cycle lane on the Old Shoreham Road.

NEWS IN BRIEF

Keep our toilets open!

The closure of toilets by the Council has been a complete disaster and greeted with dismay and disbelief in our tourist town.

Fix rubbish and recycling

After 12 years of Green and Labour, rubbish and recycling services are worse than ever. The great Bin Strike brought our city to national humiliation. Let's get this fixed!

A fresh start

If you would like to see some care taken over services in North Portslade then vote for Gary Taylor and Kirk Taylor who will make your priorities their priorities. 12 years of Labour and Green neglect is making our city grubby, dangerous and uncared for. Please support them to make the change we all badly need.
